## Intertek strengthens its environmental testing footprint through the acquisition of Envirolab in Australia

### Establishes Intertek as one of the market leaders in Australia's environmental testing sector

**2 September 2025, Sydney, Australia:** Intertek Group plc ("Intertek" and "Group"), a leading Total Quality Assurance provider to industries worldwide, is pleased to announce the acquisition of Envirolab Group (Envirolab), an industry-leading provider of environmental testing and analysis in Australia.

Envirolab's test offering includes soil, water, air, materials, biological and chemical substances, PFAS and other emerging contaminants, supporting clients across critical end-markets including government, industrials, infrastructure, natural resources, energy and construction. The business employs more than 200 highly skilled professionals across five state-of-the-art laboratories in Australia and New Zealand, including its brand new 46,000+ square foot laboratory in Perth, Western Australia.

Envirolab Group consists of market-leading brands Envirolab Services in Sydney and Melbourne, MPL Laboratories in Western Australia and LABTEC in New Zealand.

Sustainability is the movement of our time, with environmental testing a critical tool in enabling governments, businesses, and communities to make informed science-based decisions that preserve the environment and safeguard human health. As the demand for environmental testing expands, Envirolab's specialist offering, strong customer-centric culture and proven track record of innovation enables its clients to meet evolving stakeholder demands resulting from increased regulatory requirements, corporate sustainability commitments and heightened public awareness.

Through this acquisition, Intertek's scale and expertise in Assurance, Mining, Energy and Infrastructure in Australia will provide significant opportunities to support new clients with their environmental testing needs, while its industry-leading Assurance, Testing, Inspection and Certification (ATIC) solutions will expand and strengthen relationships with Envirolab's existing clients.

Ayush Dhital, Regional Managing Director Asia Pacific at Intertek, said: "The global environmental testing market is growing, particularly in Asia Pacific, and businesses need a trusted partner to ensure the quality, safety and sustainability of their products and services. In addition to Envirolab's environmental testing expertise, its customers will now also benefit from our unique, end-to-end ATIC solutions, ensuring Total Quality Assurance across their operations and supply chains."

Tania Notaras, Founder and Director of Envirolab Group, speaking on behalf of the founding shareholders John Notaras, David Springer and Jacinta Hurst, commented: "Envirolab was built on a simple promise to our clients and communities: great science and great service. I am proud of what our team has achieved across Envirolab Services, MPL Laboratories and LABTEC. Intertek is the perfect home for our people and our customers, and we are excited about what we can deliver together in the years ahead."
